	on. A one-story garage with dwellings, about 20 track with storage sheds were east of the road. *
2. A total of nine planes were seen high-wing monoplare with an in-1 Three planes with an in-1 in-line engines, rigid landing gong Three planes were gray single-engine long additional gray single-engine long from plane was the repair shop. The field was gong epaulets and blue stripes on the were seen at the field or in its	at the fiell. One plane was a gray single-engine ine engine, rigid landing gear. were gray single-engine low-wing menoplanes with ears, painted gray, gine low-wing menoplanes with in-line engines, There were three There were three flying while another one was parked in front of marded by sentries wearing white-bordered blue ar caps. He soldiers wearing Soviet uniforms vicinity, ***
2. A total of nine planes were seen high-wing monoplare with an in-1 Three planes with an in-1 in-line engines, rigid landing gong Three planes were gray single-engine long additional gray single-engine long from plane was the repair shop. The field was gong epaulets and blue stripes on the were seen at the field or in its	at the fiell. One plane was a gray single-engine ine engine, rigid landing gear. were gray single-engine low-wing monoplanes with ears, painted gray, gine low-wing monoplanes with in-line engines, gine low-wing monoplanes with in-line engines, There were three wewing monoplanes with gull type wings flying while another one was parked in front of marked by sentries wearing white-bordered blue for caps. He soldiers wearing Soviet uniforms vicinity, ** 50X1-HUM vicus information, the field covers an area of
2. A total of nine planes were seen high-wing monoplare with an in-1 Three planes with in-line engines, rigid landing of Three planes were gray single-engid landing gears, gull wings additional gray single-engine lower plane was the repair shop. The field was generated and blue stripes on the were seen at the field or in its Comment. According to prepare about 1,100 x 1,700 meters. on the field.	at the fiell. One plane was a gray single-engine ine engine, rigid landing gear, were gray single-engine low-wing monoplanes with ears, painted gray, gine low-wing monoplanes with in-line engines, There were three 50X1-HUN wewing monoplanes with gull type wings flying while another one was parked in front of charded by sentries wearing white-bordered blue cir caps. He soldiers wearing Soviet uniforms vicinity. ** 50X1-HUM vious information, the field covers an area of three hangars exist
2. A total of nine planes were seen high-wing monoplare with an in-1 Three planes with an in-1 in-line engines, rigid landing of Three planes were gray single-engid landing gears, gull wings additional gray single-engine lower plane was the repair shop. The field was geneaulets and blue stripes on the were seen at the field or in its Comment. According to prepare about 1,100 x 1,700 meters. on the field. Comment. An SM3 detail is	at the fiell. One plane was a gray single-engine ine engine, rigid landing gear. were gray single-engine low-wing monoplanes with ears, painted gray, gine low-wing monoplanes with in-line engines, There were three There were three flying while another one was parked in front of warded by sentries wearing white-bordered blue for caps. He soldiers wearing Soviet uniforms vicinity. ** 50X1-HUM vicus information, the field covers an area of three hangars exist
2. A total of nine planes were seen high-wing monoplare with an in-1 Three planes with an in-1 in-line engines, rigid landing of Three planes were gray single-engine landing gears, gull wings additional gray single-engine lower plane was the repair shop. The field was general engines and blue stripes on the were seen at the field or in its Comment. According to prepare about 1,100 x 1,700 meters. on the field.	at the fiell. One plane was a gray single-engine ine engine, rigid landing gear, were gray single-engine low-wing monoplanes with ears, painted gray, gine low-wing monoplanes with in-line engines, there were three 50X1-HUN wewing monoplanes with gull type wings flying while another one was parked in front of charded by sentries wearing white-bordered blue fir caps. He soldiers wearing Soviet uniforms vicinity. ** 50X1-HUN vicus information, the field covers an area of three hangars exist
2. A total of nine planes were seen high-wing monoplare with an in-1: Three planes with an in-1: in-line engines, rigid landing go Three planes were gray single-engine landing gears, gull wings, additional gray single-engine low for plane was the repair shop. The field was go epaulets and blue stripes on the were seen at the field or in its Comment. According to prepare about 1,100 x 1,700 neters. on the field. Comment. An SM3 detail is	at the fiell. One plane was a gray single-engine ine engine, rigid landing gear, were gray single-engine low-wing monoplanes with ears, painted gray, gine low-wing monoplanes with in-line engines, 50X1-HUN wewing monoplanes with gull type wings flying while another one was parked in front of charded by sentries wearing white-bordered blue fir caps. He soldiers wearing Soviet uniforms vicinity. ** 50X1-HUN vicus information, the field covers an area of three hangars exist
2. A total of nine planes were seen high-wing monoplare with an in-1: Three planes of in-line engines, rigid landing gent rigid landing gears, gull wings, additional gray single-engine lower for the repair shop. The rield was gent gent and blue stripes on the were seen at the field or in its Comment. According to present about 1,100 x 1,700 meters. on the field. Comment. An SN3 detail is of the local aero club and by contains the comment.	at the fiell. One plane was a gray single-engine ine engine, rigid landing gear, were gray single-engine low-wing monoplanes with ears, painted gray, gine low-wing monoplanes with in-line engines, 50X1-HUN wewing monoplanes with gull type wings flying while another one was parked in front of charded by sentries wearing white-bordered blue fir caps. He soldiers wearing Soviet uniforms vicinity. ** 50X1-HUN vicus information, the field covers an area of three hangars exist
